

## FAQ

### SDS1000X/X+/2000X Security Erase

#### **Solution:**

The Security Erase process deletes all user data and clears available volatile and non-volatile memory.

To perform a security erase process, follow these steps:

1. Press Save/Recall

2. Press Security Erase
3. Press Confirm to begin the process

After the process is complete, you can reconfigure the scope for measurements.

For more information, check **INSTRUMENT OR FAMILY LINK**, or contact your local Siglent office.
