

## Immunity testing with a Tekbox TEM cell

**September 27, 2018** 

Tekbox put together a nice application note on immunity testing using a TEM cell and a SIGLENT SSA3000X spectrum analyzer.

TEM cells are specialized hardware enclosures that can provide high electric fields and also do offer some shielding from environmental RF.

If you are having immunity issues, this note may provide some helpful information and guidance.

For more information, check out this link:

AN Immunity testing Tekbox TEM Cell
