

**New Pricing and Free Enhancements on the SIGLENT SSA3032X!
September 11, 2017**

Since its introduction into the market 2 years ago, the SIGLENT SSA3032X has grown to become an industry standard due to its excellent performance and value. The '3032Xs come equipped with a built-in preamplifier and achieve a -161 dBm/Hz displayed average noise level (Typ.) for excellent small signal measurement capability. The low noise figure (-98 dBc/Hz) and amplitude accuracy of <0.7 dB, provide more accurate and reliable measurements than other models in its class.

Now, there is even more to be excited about!

We have lowered the price. You can get a SSA3032 at \$2595!

**More than that, the latest firmware upgrade provides free 1 Hz RBW selection!
Most analyzers in this class stop at 10 Hz!**

And we have added the tracking generator, a \$169 option, at no charge!

We have expanded the functionality of an already popular product and lowered the price.

Order today and SAVE UP TO \$869!

The TG option is a limited time offer, so you best hurry if you want to save money on this deal.
